

Orbital Shaker Model 695

Code **LJN006**

Widely used in electrophoresis experiments for staining and fixing gels.

- Orbital shaker with 3-inch LCD display with real-time display of status and parameters.
- Microprocessor-controlled speed and time, precise oscillation speed, stable and noiseless.
- Low power consumption, compact structure and high load capacity.
- Equipped with power failure recovery function, the instrument can automatically resume operation according to the original set program after power recovery.
- Practical fixing bracket for quick and easy installation of microplates.
- Maintenance-free brushless motor.

Technical specifications

Reference	LJN006
Input power supply	100-240 VAC 50 / 60 Hz
Output power	60 W
Maximum load	4,5 Kg
Speed range	30-300 rpm
Oscillation mode	Orbital
Orbital diameter	10 mm
Display	LCD
Storage	0-9 programmes
Time function	1 s-999 min
Dimensions	345 x 310 x 185 mm
Weight	13,20 Kg
Protection	IP20

Accessory included

Tray for 6 tubes of 50mL and 10 tubes of 15mL

Optional trays

- Tray for 12 tubes of 50 mL
- Tray for 20 tubes of 15 mL
- Tray for 4 erlenmeyers of 250 mL
